SUPER GLU INDUSTRIAL STRENGTH

Bostik Super Glue is multipurpose glue that bonds most non-porous material in seconds. It dries to clear, permanent bond with exceptional tensile strength up to 210Kg per square cm.

Features

- Dries clear
- Exceptional tensile strength up to 210Kg per square cm
- Enables precision work due to its small size

Suitable Materials

- Metals
- Ceramics
- Woods
- Plastics
- Leather
- Natural synthetic rubber

Recommended Uses

- It is an excellent choice for precision work in industries such as electrical, optical, watch and jewellery and car accessories
- DIY or a multitude of Fix-It situations

SUPER GLU NON-DRIP GEL

Bostik Super Glu Non-Drip Gel is a single part, fast curing adhesive which bonds in seconds without the need for heat or hardener. It provides very strong bonds of high tensile strength, has the advantage if a non-drip consistency, and is economical in use.

Features

- Dries clear
- Enables precision work
- Non drip gelled formula
- Instant bond to most surfaces

Suitable Materials

- Porcelain
- Rubber
- Metals
- Leather
- Wood
- Pottery
- Ceramics
- Plastic

Recommended Uses

- It is particularly useful in the home and other locations for a variety of assembly and repair applications

NO MORE NAILS

Bostik No More Nails® is a versatile general-purpose construction adhesive suitable for bonding a wide variety of building materials for internal or external applications.

Features

- Nail free general construction adhesive
- High bond strength
- Excellent adhesion and sealing properties
- Excellent green strength
- Good temperature resistance
- Chemical resistant
- Good slump resistance
- Bonds a variety of construction and building materials
- Ideal for interior and exterior applications

Suitable Materials

- Metal
- Timber
- Concrete
- Plaster
- Foamed polystyrene
- General building materials

Recommended Uses

- · As a contact adhesive for installation of wall and floor panels • Metal, timber & other sheets of plan materials
 - to concrete, plaster or other rigid surfaces • Most bonding applications where high strength,
 - gap filling one component adhesive is required
 - Timber, metal, cementitious and plaster sheets to timber or metal studs
 - · Installation of battens or other fixings to brick, masonry or concrete walls
 - Ideal for mirror backed tiles

GENERAL PURPOSE SILICONE

Bostik General Purpose Silicone is an industrial grade, neutral cure silicone sealant designed for sealing lap joints in metal guttering, aluminum, roofing, flashings and down pipes. Specifically designed to meet Australian conditions.

Features

- Excellent General Purpose Sealant
- Permanently flexible
- Suitable for interior and exterior applications
- Unaffected by rain, snow, extreme temperature change and constant ultra violet exposure
- Waterproof
- Excellent adhesion properties

Suitable Materials

- Steel
- Aluminium
