

SMART RANGE.

for Asia Pacific

A COMPLETE RANGE FOR THE PROFESSIONAL USERS

 **BE INSPIRED**

Professional New Sealing & Bonding SMART Range

The SMART portfolio includes sealants, adhesives and foams to fulfill sealing and bonding requirements for our professional end-users. Bostik solutions are innovative, time saving, easy to use with predictable and reliable end-results.

The professional portfolio services all types of building projects within sealing and bonding applications in various technologies. The applications can be in construction joints & facades, decoration & paint, sanitary and even general purpose use to cater for different users.

Our smart products are produced for our worldwide markets.

Sealing & Bonding Solutions.

With our dedicated technology team and roadmaps it is our ambition to be the technology leader in each of our focus areas.

ACRYLICS

Global market & Technology leader
Wide product and solution offer
Applicable in a wide variety of PMCs
Most unique proposition in paint market

HYBRIDS

Market & technology leader
Wide product and solution offer
Applicable in a wide variety of PMCs
Extensive range of ecofriendly products

POLYURETHANE FOAMS

Wide range of formulations
All our formulations are FC1 Plus
Commodities as well as specialties available
2 production facilities

SILICONES

Acetoxies and multiple neutral systems
Filled and unfilled
Standard and specialties available

POLYURETHANES

High end sealants and adhesives
Patented formulations
Reduction of bubbles during curing
Extreme powerful grabs

MISCELLANEOUS

Technical Aerosols
Tapes & membranes
2-component repair systems
Primers, cleaners and a wide range of accessories to support our products

Grabs & Adhesives.

For all professional craftsman in the building and construction industry who need to adhere building materials without any qualms will find within Bostik's grabs and adhesive portfolio the most perfect, innovative and cost-efficient products that will fulfill all needs and requirements. If you need to make an indestructible adherence from a lightweight architrave up till an extremely heavy object, Bostik will offer the most ideal and most durable connection as we manufacture and deliver not only 'Smart Adhesives' but also a promise.
