

REGULATORY INFORMATION Europe

BOSTIK WOOD H200 ELASTIC
Revision Number 1.05

Revision date 30-Jan-2024
Supersedes Date: 26-Sep-2023

European Union

Registration, Evaluation, Authorisation, and Restriction of Chemicals (REACH) Regulation (EC 1907/2006)

SVHC: Substances of Very High Concern for Authorisation:

This product does not contain candidate substances of very high concern at a concentration $\geq 0.1\%$ (Regulation (EC) No. 1907/2006 (REACH), Article 59)

Effective date 23/01/2024 (DD/MM/YYYY)

This document reflects all substances present on the Candidate list of substances for authorisation as per the date of issue of this document. Should the SVHC status of one of our products change, Bostik will comply with their communication responsibility according to the REACH Regulation by updating SDS which is distributed to customers who have purchased within previous 365 days.

Bostik is fully aware of its obligations towards the registration of concerned Articles in SCIP Database (Substances of Concern In articles as such or in complex objects (Products)) established under the Waste Framework Directive (WFD). This product is not in scope of SCIP requirements as it is considered chemical product and not article therefore there will be no obligations under SCIP based on the above.

European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste

The sum of heavy metals (lead, cadmium, mercury and hexavalent chromium) does not exceed 100ppm based on data from our suppliers. Please note that we do not measure the heavy metal content in this product. This document is based on the information given to us by our own suppliers at the date of this document.

REGULATION (EU) 2019/1148 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 20 June 2019 on the marketing and use of explosives precursors

Not applicable

Directive 2011/65/EU (EU RoHS 2), as amended by the Delegated Directive (EU) 2015/863 (EU RoHS 3)

This product does not contain Lead, Cadmium, Mercury, Hexavalent chromium, Polybrominated biphenyls (PBB), Polybrominated diphenyl ethers (PBDE), Bis(2-Ethylhexyl) phthalate (DEHP), Benzyl butyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP) above the regulated limit mentioned in this regulation. This document is based on the information given to us by our own suppliers at the date of this document.

2017/821/EU Conflict Minerals

Regulation (EU) 2017/821 of 17 May 2017 concerning minerals originating from conflict-affected and high-risk areas entered into full force on 1st January 2021.

Bostik certifies that we do not intentionally add minerals (tin, tantalum, tungsten, gold, or their derivatives) coming from these areas for the manufacturing of this product.

Additionally, to the best of our knowledge and based on the information given to us by our raw material suppliers, these minerals or their derivatives are not present in the raw materials we buy.

United States of America

California Proposition 65

Substances as defined in Proposition 65 of the California Safe Drinking Water and Toxic Enforcement Act of 1986 and its amendments

Effective date 11/08/2023 (DD/MM/YYYY)

This product contains one or more of the substances listed on Proposition 65 at or above 0.0001 wt. %.

Chemical name	California Proposition 65
Methyl alcohol 67-56-1	Developmental
Toluene 108-88-3	Developmental
Methyl alcohol 67-56-1	Developmental

CONEG

Heavy metal compounds (cadmium, chromium, mercury and lead) are not known or expected to be present in the above-mentioned product ≥ 100 ppm. Therefore, there is no objection to use this product in the manufacture of packaging materials intended to be covered by CONEG standard. This document is based on the information given to us by our own suppliers at the date of this document.

Conflict Minerals Disclosure

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2012, Section 1502, allows the Securities and Exchange Commission (SEC) to impose reporting requirements upon U.S. and certain foreign manufacturers if their products contain metals derived from "Conflict Minerals" – tin, tantalum, tungsten, gold, or their derivatives; or any other mineral or its derivatives determined by the U.S. Secretary of State – originating from the Democratic Republic of the Congo (DRC) and adjoining countries. As part of Arkema, Bostik is not required to make disclosures under the Act, and we do not directly purchase "conflict minerals" as identified by the SEC. Bostik is however committed to responsible sourcing and to assisting our customers in their compliance with the Act. Bostik will take proper steps to switch to conflict-free materials if at any point we become aware of non-conflict-free materials within our supply chain.

Further information

Additional information

Endocrine disrupting potential.

Where relevant the SDS will provide information on topics such as:

EU - REACH (1907/2006) - Annex XIV - List of substances subject to Authorization.

EU - REACH (1907/2006) - Annex XVII - Restrictions on Certain Dangerous Substances.

Information on long-term effects of exposure (e.g. reproductive toxicity, carcinogenicity, mutagenicity, cumulative and other chronic effects).

Advice on safe handling.

Ozone-depleting substances (ODS) regulation (EC) 1005/2009.

Persistent Organic Pollutants.

Disclaimer

This document is intended to answer commonly asked regulatory questions and is not intended to cover all the regulations that might apply globally to the above mentioned product.

This information in this document is given to the best of our knowledge and is subject to change and correction.

This document is based on the information given to us by our own suppliers at the date of this document.
