H770 PANELTACK INTERIOR

BOSTIK H770 PANELTACK INTERIOR is a moisture-curing, highly elastic adhesive with a high final strength. BOSTIK H770 PANELTACK INTERIOR is specially developed for the bonding of cladding panels (e.g. HPL) in an indoor application.

BOSTIK H770 PANELTACK INTERIOR has a good moisture-resistance and is virtually odourless. It offers a high final strength and can also be applied on natural stone.

*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

BENEFITS

- Very low emission (ISEGA & EC1 PLUS certified)
- Solvent, silicone and isocyanate-free
- High final strength
- Durable elastic
- Excellent mechanical strength
- Suitable for natural stone
- Simple and fast fixation
- Good moisture resistance
- Possible to reach reaction to fire system performance of class B-s1,d0
