Delivering superior performance with sustainability in mind

Bostik H540 Seal'N'bond Evolution is a state-of-art multi-functional universal sealant and adhesive based on hybrid technology. With our 3-in-1 formula, it seals, bonds, and fills gaps effortlessly. In addition, H540 Seal'N'bond Evolution features 46%* bio-based content, a first on the market!

H540 Seal'N'bond Evolution provides long-lasting elastic sealing of non-structural joints, such as perimeter, window & door joints. Moreover, it serves as a multi-purpose construction adhesive suitable for indoors and outdoors. H540 Seal'N'bond Evolution is compatible with a wide range of materials including: stone, concrete, glass, plasterboard, PU, PVC, hard plastics, enamel, ceramic, copper, lead, zinc, aluminum, metals, alloys, stainless steel, wood and various paint systems.

*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

KEY BENEFITS

- 46%* bio-based content
- Free of tin, isocyanates, solvents and SVHC
- Resistant to UV, moisture and weather conditions
- Adheres perfectly without primer on most, even damp, surfaces
- Paintable with water-based & bio-based decorative paints
- Very low TVOC emissions
