ARKEMA SIGNS A NEW BIOMETHANE SUPPLY AGREEMENT WITH ENGIE

Arkema continues its transformation towards a more sustainable industrial model with the signing of a new, eight-year contract with ENGIE for the procurement of biomethane for several Bostik sites in France.

This 25 GWh/year contract will cover some 85% of the annual gas consumption of four Bostik sites in France (Coubert, Privas, Ribécourt and Venette), a notable step forward in the decarbonization of the company's energy supply.

This latest agreement is in line with the long-term contract signed with ENGIE in early 2023 for the supply of 300 GWh/year of biomethane in France.

"*This contract marks a strategic step forward in our energy transition. It illustrates our commitment to taking concrete action to reduce our carbon footprint and support our customers in their own decarbonization journey*" stated Vincent Legros, Executive Vice President of the Adhesives Solutions segment (Bostik).

"*This second Biomethane Purchase Agreement (BPA) signed between ARKEMA and ENGIE confirms the first. As a major player in biomethane in France, ENGIE is pleased to support Arkema in the decarbonization of its operations through this new long-term commitment*" announces Edouard CHEVALIER, Managing Director of Risk Management and Origination at ENGIE.

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 92% of Group sales in 2024, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around € 9.5 billion in 2024, and operates in some 55 countries with 21,150 employees worldwide.
