CG-HP20 12 Bostik Caulking Gun

KEY BENEFITS

- **Built to last with quality Steel construction**
- **Suitable for 300ml cartridges**
- **Metal handle and Anti-Drip setting**
- **SKU 30860764**

PRODUCT DESCRIPTION

Bostik Maxi Sealant Gun is a universal joint and glue chair that fits cartridges up to 300 ml. The cradle of the joint gun ensures that the cartridge is held in place and is at the same time rotatable so that the joint tip has the right angle in relation to the surface.

Optimised to work with different types of adhesives and sealants with light compressive force.

Bostik Maxi Sealant Gun has an anti-drip function - the flow of glue or joint stops immediately when you release the handle. Anti-drip function increases precision and reduces product spillage.

The information given and recommendations made herein are based on Bostik's research only and are not guaranteed to be accurate. The performance of the product, its shelf life, and application characteristics will depend on many variables, including the kind of materials to which the product will be applied, the environment in which the product is stored or applied, and the equipment used for application. Any change in any of these variables can affect the product's performance. It is the buyer's obligation, prior to using the product, to test the suitability of the product for an intended use under the conditions that will exist at the time of the intended use. Bostik does not warrant the product's suitability for any particular application. The product is sold pursuant to Bostik's Terms and Conditions of Sale that accompanies the product at the time of sale. Nothing contained herein shall be construed to imply the nonexistence of any relevant patents or to constitute permission, inducement, or recommendation to practice any invention covered by any patent, without authority from the owner of the pat

PRODUCT CHARACTERISTICS

Colour	Blue
Size	35x15mm
Ratio	12:1
Body	HP Type (Aluminum)
Trigger	Standard (Aluminium)
Frame	Open
Rod	U-Shape (Steel)
