

BOSTIK SOLVENT BASED ADHESIVES BPIR DECLARATION

Version 1.0 January 2024

DESIGNATED BUILDING PRODUCT: Class 1

DECLARATION

Bostik New Zealand Ltd (Bostik) has provided this declaration to satisfy the provisions of the **Building (Building Product Information Requirements) Regulations 2022**.

COMPANY DETAILS

Name	Bostik New Zealand Ltd
Role	Manufacturer
NZBN	9429039292674
Address	19 Eastern Hutt Rd, Wingate, Lower Hutt
Website	www.bostik.com/newzealand/en_NZ/
Email	nzsales@bostik.com
Phone	0508 222 777

DESCRIPTION OF BUILDING PRODUCT

Bostik supplies organic solvent based adhesives, with various modes of application.

The solvent based adhesives are manufactured to an applicable standard and are third-party tested where relevant. Bostik has an active in-house testing regime for all of their products.

Adhesive material is blended with an organic solvent to create an adhesive polymer solution. The mechanism of adhesion is varied and complicated. This means that adhesives are use specific.

For the complete list of solvent based adhesives and their use, refer to Appendix 1.

Bostik also supplies a range of solvent based adhesives categorised as industrial. These adhesives can be used in manufacturing processes including but not limited to joinery manufacture, bonding of carpets, laminates, lamination of benches. More information on these products is included in the **Industrial Adhesives brochure**.

Bostik has a lengthy history in speciality adhesives. It originated in Massachusetts, America in 1889 and was known as the Boston Blacking Company. The name Bostik was adopted in 1960. In 2015 it became part of the Arkema group. Bostik has a strong focus on **sustainability**, products and how they operated the business.

CONTRIBUTION TO BUILDING WORK CODE OBLIGATIONS

Bostik solvent based adhesives do not have building code obligations. Building code obligations arise when used in building work. Bostik relies on their in-house testing, third-party testing and compliance with standards as applicable to make the following claims.

When used in building work, Bostik solvent based adhesives may contribute to compliance with the applicable performance criteria in respect of:

- B1 (Structure)
- B2 (Durability)
- E2 (External Moisture)
- E3 (Internal Moisture)
- F2 (Hazardous Building Materials): F2.3.1.

FOR FURTHER INFORMATION

Bostik solvent based adhesives must be used and stored in accordance with all information supplied by Bostik.

For supporting information refer to **Bostik**.

RESPONSIBLE PERSON

In accordance with Regulation 8, as the responsible person I confirm that the information supplied in this declaration is based on information supplied to the company as well as the company's own processes and is therefore to the best of my knowledge, correct.

I can also confirm Bostik solvent based adhesives, as referred to in this statement, are not subject to a warning or ban under **s26 of the Building Act**.

Signed for and on behalf of Bostik New Zealand Ltd:

January 2024

APPENDIX 1

Version 1.0 January 2024

Bostik supplies a full range of adhesives for exterior and interior application.

GOLD ORIGINAL

High strength, stud & wallboard adhesive suitable for internal & external application. Able to be used with LOSP and CCA treated timber.

Gold original is made in NZ and has been assessed by BRANZ to have a 40-year serviceability.

Click here for more [information](#).

TUF AS NAILS GENERAL PURPOSE

Wallboard & construction adhesive suitable for internal & external application.

Able to be used with multiple products including formica, particleboard, steel, aluminium, plasterboard, fibre cement sheets, concreted.

Tuf as Nails General Purpose is made in NZ.

Click here for more [information](#).

TUF AS NAILS ORIGINAL

Polystyrene-safe construction adhesive for internal applications only. Suitable for use with polystyrene, acrylic shower linings as well other substrates including steel, aluminium, plasterboard, fibre cement and concrete.

Click here for more [information](#).

STIK-N-SEAL

Multi-purpose adhesive/sealant for internal & external applications particularly air conditioning, engineering, marine and flooring. Bonds to porous, non-porous, smooth & rough substrates and plastics including flexible PVC. Is resistant to chemical, oil, and solvents.

Click here for more [information](#).

SHOWER GRIP

Aliphatic solvent-based adhesive, intended for use in wet areas including shower linings and trays. Heat and mould resistant.

Shower Grip is made in NZ.

Click here for more [information](#).

SUPERTAK HP

A solvent-based spray adhesive. It is intended for use to bond porous and non-porous surfaces including polythene to itself, concrete block, and wood.
