

BOSTIK WATER BASED ADHESIVES BPIR DECLARATION

Version 1.0 January 2024

DESIGNATED BUILDING PRODUCT: Class 1

DECLARATION

Bostik New Zealand Ltd (Bostik) has provided this declaration to satisfy the provisions of the **Building (Building Product Information Requirements) Regulations 2022**.

COMPANY DETAILS

Name	Bostik New Zealand Ltd
Role	Manufacturer
NZBN	9429039292674
Address	19 Eastern Hutt Rd, Wingate, Lower Hutt
Website	www.bostik.com/newzealand/en_NZ/
Email	nzsales@bostik.com
Phone	0508 222 777

DESCRIPTION OF BUILDING PRODUCT

Bostik supplies water based adhesives for use as an alternative to, or with, nails, screws and other mechanical fixings.

Water based adhesives are manufactured from polymeric emulsions and various functional additives. These additives are added to ensure ongoing performance. Applied as a liquid, the adhesive characteristics become activated as the water evaporates or is absorbed by the substrate. Water based adhesives emit less VOCs and are less polluting than solvent-based adhesives.

The manufacture of Bostik water based adhesives is third-party tested, where relevant, in addition to the active in-house testing regime.

For the complete list of water-based adhesives and their use, refer to Appendix 1.

Bostik also supplies a range of water based adhesives categorised as industrial. More information on these products is included in the **Industrial Adhesives brochure**.

Bostik has a lengthy history in speciality adhesives. It originated in Massachusetts, America in 1889 and was known as the Boston Blacking Company. The name Bostik was adopted in 1960. In 2015 it became part of the Arkema group. Bostik has a strong focus on **sustainability**, products and how they operated the business.

CONTRIBUTION TO BUILDING WORK CODE OBLIGATIONS

Bostik water based adhesives do not have building code obligations. Building code obligations arise when used in building work. Bostik relies on their in-house testing, third-party testing, and compliance with standards, as applicable, to make the following claims.

When used in building work, Bostik water based adhesives may contribute to compliance with the applicable performance criteria in respect of:

- B1 (Structure)
- B2 (Durability)
- E2 (External Moisture)
- E3 (Internal Moisture)
- F2 (Hazardous Building Materials): F2.3.1.

FOR FURTHER INFORMATION

Bostik water based adhesives must be used and stored in accordance with all information supplied by Bostik.

For supporting information, refer to **Bostik**.

RESPONSIBLE PERSON

In accordance with Regulation 8, as the responsible person I confirm that the information supplied in this declaration is based on information supplied to the company as well as the company's own processes and is therefore to the best of my knowledge, correct.

I can also confirm Bostik water based adhesives, as referred to in this statement, are not subject to a warning or ban under **s26 of the Building Act**.

Signed for and on behalf of Bostik New Zealand Ltd:

BOSTIK WATER-BASED TILE ADHESIVES

APPENDIX 1

Version 1.0 January 2024

Bostik supplies a full range of adhesives for exterior and interior application.

GOLD ULTRA

A gold, general purpose, acrylic/resin blended, adhesive. It is non-toxic and suitable for use with metal and timber frames, including LOSP treated timber. It may be used in horizontal, vertical and overhead applications.

A typical use is gluing and screwing plasterboard but will also bond concrete, brickwork, plywood, fibre cement panels, ceramic tiles, and polystyrene or polyurethane foams to timber.

Click here for more [information](#).

TUF AS NAILS WATER BASED (WB)

Off-white, acrylic, non-toxic stud adhesive. Specifically designed to minimise screw and nail popping caused by timber shrinkage, or timber or metal frame movement.

Will also bond timber to concrete, brickwork, and chipboard, plywood, fibre cement sheeting to joints or solid floors and walls.

It may be used in horizontal, vertical and overhead applications.

Tuf as Nails (WB) is made in NZ.

ULTRAGRIP

Blue, acrylic, non-toxic stud adhesive.

Specifically designed to minimise screw and nail popping caused by timber shrinkage, or timber or metal frame movement.

Will also bond timber to concrete, brickwork, and chipboard, plywood, fibre cement sheeting to joints or solid floors and walls.

It may be used in horizontal, vertical and overhead applications.

Ultragrip is made in NZ.
