

T500

FINISHING SOAP

READY-TO-USE BIODEGRADABLE NEUTRAL TOOLING SPRAY FOR JOINT SEALING

TECHNICAL DATA SHEET

BENEFITS

- Ergonomically spray bottle
- Ready-to-use
- More than 99% biodegradable
- Neutral mixture to avoid discolouration of the joint sealant

PRODUCT DESCRIPTION

Bostik T500 FINISHING SOAP is a ready to use biodegradable neutral tooling spray for smoothing fresh applied joint sealants.

APPLICATIONS

Bostik T500 FINISHING SOAP was developed for wet tooling of sealants in joints.

DIRECTIONS OF USE

Before use always mix thoroughly. After application of the sealants the surface of the joints and the neighbouring surfaces must be moistened with **Bostik T500 FINISHING SOAP**. The joint may be tooled using a spatula or a putty knife. After smoothing the joint can be finished with a finger dipped in **Bostik T500 FINISHING SOAP**.

TECHNICAL DATA

Application temperature		+5°C to + 40°C
Base		Biodegradable mixture
Density		1,00 g/ml
pH Value		pH = 7,1

These values are typical properties and may vary +/-3%

COLOUR(S)

- Transparent

PACKAGING

- 500 ml Bottles, 12 per box

For product specifications, please refer to the Online Product Detail Page

SHELF LIFE

In unopened original packaging between + 5°C and + 25°C, shelf life is up to 24 months from production date, stored in a dry place.

HEALTH & SAFETY

Product Safety Data Sheet must be read and understood before use. These are available on request and via the websites.

BOSTIK PROFESSIONAL

Besides the determination of choosing the most suitable sealant for the job and to calculate the correct joint sealant dimension and the accurate backer rod, the cleaning, preparation and finishing of the freshly applied sealant is also critical in the application process. Therefore Bostik has put together with the most care a range of products for the professional to ensure the best results. Of course, your Bostik technical adviser can inform you further about this.

CLEANING

- o **Bostik T100 UNIVERSAL CLEANER** Is a powerful universal cleaner for almost all non-porous surfaces. Even for cleaning critical surfaces such as plastic and powder coated substrates.

- **Bostik T150 CLEANING WIPES** are very efficient and especially easy cleaning cloths with a powerful effect. Packed per 80 in a lockable canister. Cleans uncured material easily, but is also effective for cleaning hands and tools.

PRE-TREATMENT

- **Bostik T300 UNIVERSAL PRIMER** is truly a universal adhesion promoter for both porous and non-porous surfaces and can be used to improve the adhesion for the Bostik hybrid, silicone and polyurethane sealants and adhesives.

THE-FINISHING-TOUCH

- **Bostik T500 FINISHING SOAP** is a ready-to-use biodegradable neutral tooling spray for smoothing freshly applied joint sealants to obtain the best results.
