HPD UNIQUE IDENTIFIER: 25787761664
CLASSIFICATION: 09 96 66 Aggregate Wall Coatings
PRODUCT DESCRIPTION: Bostik Roll-Cote High-Performance Moisture-Vapor-Barrier Coating and Primer is a water-based, one component system formulated to reduce substrate moisture vapor emissions, prime floors prior to the application of underlayments and blocks concrete alkalinity. Roll-Cote significantly improves return-to-service speed for flooring installation by combining multiple steps into one product. Roll-Cote is suitable for use in many environments, is compatible with an assortment of flooring types, and can be used on both concrete and wood substrates. No mixing is required, and its easy-to-apply formulation and fast dry time makes Roll-Cote dependable and user-friendly. Roll-Cote is durable and low odor, and the black color provides great visual indication of coverage during the installation process.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this

HPD and for compliance with the HPD standard noted.
