

# FIRESEAL MORTAR FP 370

GYP SUM BASED FIRE  
RETARDANT MORTAR

BOSTIK FP 370 FIRESEAL MORTAR is a dry white powder consisting of inorganic compounds and perlite. When mixed with water, the compounds form a highly thermally insulating fire sealing compound to prevent the spread of fire and smoke through openings in fire rated walls and floors, including openings formed around building service penetrations.

- Certified to the latest European standard EN 1366-3
- Fire resistance up to 4 hour
- Classified in walls and floors of concrete, brick, gypsum etc.
- Suitable for cables, bundled cables, cable racks, cable trays, steel, copper, alupex, plastic pipes and air ventilation ducts
- High degree of mechanical resistance; the seal is load bearing without reinforcement
- Suitable for most surfaces, included concrete, bricks, Leca, steel, plastic etc., but not suitable to fitting of doors or in service openings that involve movement
- Easy to apply leaving a very smooth finish
- Fully set within 1 hour
