Very competitive cost price for the retailer

THE FULL BOSTIK EXPANDA FOAM RANGE

EXPANDA PRO GUN FOAM (750ml)

Professional grade, one component, gun-applied, self-expanding Polyurethane foam.

- BRANZ Appraised
- Very high yield (up to 50L) and low post expansion in one product!
- Precise dosage with Bostik Expanda Gun
- Multi-purpose – seals, fills cavities, minimises sound, provides air seal, eliminates draughts
- Ideal for sealing around window / door frames, sealing roof openings, air conditioning vents etc
- Excellent insulation and acoustic properties
- Excellent adhesion on most substrates

EXPANDA PRO FOAM (750ml)

Professional grade, one component, ready to use, self-expanding Polyurethane foam.

- BRANZ Appraised
- Very high yield (up to 45L) and low post expansion in one product!
- Mega adapter allows product to be applied at any angle – great for tight areas
- Multi-purpose – seals, fills cavities, minimises sound, provides air seal, eliminates draughts
- Ideal for sealing around window / door frames, sealing roof openings, air conditioning vents etc
- Excellent insulation and acoustic properties
- Excellent adhesion on most substrates
- CFC free propellant (harmless to ozone layer)

NEW! FIRE RATED EXPANDA FOAM GUN GRADE (750ml)

Professional grade, one component, gun-applied, self-expanding fire rated foam.

- Fire retardant up to 4 hours to B1 – AS 1530-4-2005
- Effective seal against fire, smoke and gas
- Excellent heat and sound insulation properties
- All applications where fire retardant characteristics are required
- Precise dosage with Bostik Expanda Gun
- Yields 30L (approx)
- Low post expansion
- Excellent adhesion on most substrates
- CFC free propellant (harmless to ozone layer)

NEW! FIRE RATED EXPANDA FOAM (750ml)

Professional grade, one component, self expanding fire rated foam.

- Fire retardant up to 4 hours to B1 – AS 1530-4-2005
- Product can be applied at any angle – great for tight areas
- Effective seal against fire, smoke and gas
- Excellent heat and sound insulation properties
- All applications where fire retardant characteristics are required
- Yields 27L (approx)
- Low post expansion
- Excellent adhesion on most substrates
- CFC free propellant (harmless to ozone layer)

EXPANDA FOAM GP (500ml)

General Purpose, one component, ready to use, self-expanding Polyurethane foam.

- Economical and great for DIY
- Reusable, just fold nozzle and insert into plug to maximise product life once opened
- Multi-purpose – seals, fills cavities, minimises sound, provides air seal, eliminates draughts, seals windows and door frames
- Excellent insulation and acoustic properties
- Excellent adhesion on most surfaces
- CFC free propellant (harmless to ozone layer)

EXPANDA GUN & FOAM CLEANER (500ml)

Ready to use cleaning fluid for use on Bostik Expanda Guns and Aerosol Foams.

- Removes uncured foam
- Cleans Expanda Foam Guns
- Cleans aerosol valves and spray nozzles of Expanda Foam aerosol cans
- Correct cleaning of gun will ensure optimal function and prevent blockages

EXPANDA DESIGNER GUN

High quality gun for professional use.

- For use on Bostik Expanda Gun Foams
- Body of gun made from steel
- Sourced from Europe

NEW! EXPANDA COMPACT GUN

Economical gun

- For use on Bostik Expanda Gun Foams
- Sourced from Europe
