SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of:
This SDS is for generic information purposes and does not reflect required country specific
information for OEL

MAXI BOND EXTREME WHITE
Supercedes Date: 03-May-2016

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product Identifier

Product Name MAXI BOND EXTREME WHITE
Pure substance/mixture Mixture

1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended use Adhesive.
Uses advised against None known.

1.3. Details of the supplier of the safety data sheet

Company Name Bostik SA
420 rue d'Estienne d'Orves
92700 Colombes
FRANCE.
Tel: +33 (0)1 49 00 90 00

E-mail address SDS.box-EU@bostik.com

1.4. Emergency telephone number

Emergency Telephone No information available

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Regulation (EC) No 1272/2008
Not classified

2.2. Label Elements

Not classified

Signal word None

Hazard statements Not classified

EU Specific Hazard Statements
EUH210 - Safety data sheet available on request.

2.3. Other Hazards

Small amounts of methanol (CAS 67-56-1) are formed by hydrolysis and released upon curing

PBT & vPvB
This mixture contains no substance considered to be persistent, bioaccumulating or toxic (PBT) This mixture contains no
section 3: composition/information on ingredients

3.1 substances
Not applicable

3.2. mixtures

Full text of H- and EUH-phrases: see section 16

This product does not contain candidate substances of very high concern at a concentration >=0.1% (Regulation (EC) No. 1907/2006 (REACH), Article 59)

section 4: first aid measures

4.1. description of first aid measures

General advice
If medical advice is needed, have product container or label at hand. Show this safety data sheet to the doctor in attendance.

Inhalation
Remove to fresh air. If symptoms persist, call a doctor.

Eye contact
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Skin contact
Wash skin with soap and water. In the case of skin irritation or allergic reactions see a doctor.

Ingestion
Call a doctor immediately. If swallowed, rinse mouth with water (only if the person is conscious). Small amounts of toxic methanol are released by hydrolysis.

4.2. most important symptoms and effects, both acute and delayed

Symptoms
None known.

4.3. indication of any immediate medical attention and special treatment needed

Note to doctors
Small amounts of methanol (CAS 67-56-1) are formed by hydrolysis and released upon curing. Treat symptomatically.
SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: Water spray, carbon dioxide (CO2), dry chemical, alcohol-resistant foam.

Unsuitable extinguishing media: Full water jet.

5.2. Special hazards arising from the substance or mixture

Specific hazards arising from the chemical: Thermal decomposition can lead to release of irritating gases and vapours.

Hazardous combustion products: Carbon dioxide (CO2).

5.3. Advice for firefighters

Special protective equipment for firefighters: Wear self contained breathing apparatus for fire fighting if necessary.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions: Use personal protective equipment as required. Ensure adequate ventilation. Do not get in eyes, on skin, or on clothing.

Other information: Ventilate the area. Prevent further leakage or spillage if safe to do so.

For emergency responders: Use personal protection recommended in Section 8.

6.2. Environmental precautions

Environmental precautions: Prevent product from entering drains. Do not allow to enter into soil/subsoil. See Section 12 for additional Ecological Information.

6.3. Methods and material for containment and cleaning up

Methods for containment: Do not scatter spilled material with high pressure water streams.

Methods for cleaning up: Take up mechanically, placing in appropriate containers for disposal.

6.4. Reference to other sections

Reference to other sections: See section 8 for more information. See section 13 for more information.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling: Ensure adequate ventilation. Use personal protective equipment as required. Avoid contact with skin, eyes or clothing.

General hygiene considerations: Do not eat, drink or smoke when using this product. Wash hands before breaks and after work.

7.2. Conditions for safe storage, including any incompatibilities

Storage Conditions: Protect from moisture. Keep at temperatures between 5 and 35 °C. Keep away from food, drink and animal feedingstuffs.
7.3. Specific end use(s)

Specific Use(s)
Adhesive. Sealant.

Risk Management Methods (RMM)  The information required is contained in this Safety Data Sheet.

Other information  Observe technical data sheet.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Exposure Limits  Small amounts of methanol (CAS 67-56-1) are formed by hydrolysis and released upon curing

Only European Community Occupational Exposure Limits will be shown in this document. Please refer to regional SDS for further information.

### 8.2. Exposure controls

**Engineering controls**
Ensure adequate ventilation, especially in confined areas.

**Personal Protective Equipment**

**Eye/face protection**
Wear safety glasses with side shields (or goggles). Eye protection must conform to standard EN 166

**Hand protection**
Wear suitable gloves. Ensure that the breakthrough time of the glove material is not exceeded. Refer to glove supplier for information on breakthrough time for specific gloves. The breakthrough time for the mentioned glove material is in general greater than 480 min. Glove thickness > 0.7mm. Recommended Use: Neoprene™. Nitrile rubber. Butyl rubber. Gloves must conform to standard EN 374

**Skin and body protection**
None under normal use conditions.

**Respiratory protection**
Wear a respirator conforming to EN 140 with Type A/P2 filter or better. In case of inadequate ventilation wear respiratory protection. Ensure adequate ventilation, especially in confined areas.

**Recommended filter type:**

**Environmental exposure controls**
Do not allow uncontrolled discharge of product into the environment.

Revision date 22-Jun-2020
Supercedes Date: 03-May-2016
Revision Number 2.01

SECTION 10: Stability and reactivity

10.1. Reactivity
Reactivity
Product cures with moisture.

10.2. Chemical stability
Stability
Stable under normal conditions.

Explosion data
- Sensitivity to mechanical impact
  None.
- Sensitivity to static discharge
  None.

10.3. Possibility of hazardous reactions
Possibility of hazardous reactions
None under normal processing.

10.4. Conditions to avoid
Conditions to avoid
Protect from moisture. Product cures with moisture.

10.5. Incompatible materials
Incompatible materials
None known based on information supplied.

10.6. Hazardous decomposition products
Hazardous decomposition products
None under normal use conditions.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Information on likely routes of exposure

Product Information

- Inhalation
  Based on available data, the classification criteria are not met.
- Eye contact
  Based on available data, the classification criteria are not met.
- Skin contact
  Causes mild skin irritation.
- Ingestion
  Based on available data, the classification criteria are not met.

12.6. Other adverse effects

Other adverse effects
No information available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste from residues/unused products
Uncured product should be disposed of as hazardous waste. Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable.

Contaminated packaging
Handle contaminated packages in the same way as the product itself.

Waste codes / waste designations according to EWC / AVV
15 01 10*: Packaging containing residues of or contaminated by dangerous substances. 16 03 03* inorganic wastes containing hazardous substances. 16 05 05 gases in pressure containers other than those mentioned in 16 05 04. Waste codes should be...
assigned by the user based on the application for which the product was used.

European Waste Catalogue
08 04 10 waste adhesives and sealants other than those mentioned in 08 04 09

Other information
Waste codes should be assigned by the user based on the application for which the product was used.

SECTION 14: Transport information

Land transport (ADR/RID)
14.1 UN number Not regulated
14.2 Proper Shipping Name Not regulated
14.3 Transport hazard class(es) Not regulated
14.4 Packing group Not regulated
14.5 Environmental hazards Not applicable
14.6 Special Provisions None

IMDG
14.1 UN number Not regulated
14.2 Proper Shipping Name Not regulated
14.3 Transport hazard class(es) Not regulated
