POLYURETHANE & ACRYLIC SEALANTS

COLOUR SELECTION

IDEAL FOR • Pre-cast and tilt-up joint sealing • Fire-rated penetrations and wall/floor joints • Flooring and pavements

SEAL N FLEX 1
A low modulus flex, one component, Class A polyurethane sealant
When cured it will form a tough, flexible seal capable of cyclic expansion and contraction movement of 100% (± 50%) of the original joint width.

Special Features
• Excellent durability – unaffected by normal weathering conditions
• Acoustic rating
• Paintable
• Australian made

SEAL N FLEX FC
A high performance fast cure one component polyurethane sealant
When cured it will form a tough, flexible seal and bond capable of cyclic, expansion and contraction movement of 50% (+25%).

Special Features
• Excellent durability – unaffected by normal weathering conditions
• Fast tack free time and cure rate
• Paintable
• Australian made

FIREBAN ONE
A Low modulus flex one component fire rated polyurethane joint sealant
When cured it will form a tough flexible fire rated seal capable of cyclic expansion and contraction movement of 50% (+25%) of the original installed width

Special Features
• Fire rated up to 4hrs (AS1530.4)
• Acoustic rated to 67Rw
• CSIRO certified
• Australian made

FIRECAULK
Fire rated acrylic sealant
When cured it will form a tough flexible fire rated seal capable of cyclic expansion and contraction movement of 25%, (+12.5%) of the original installed width.

Special Features
• Fire rated up to 4hrs (AS1530.4)
• Acoustic rated to 67Rw
• CSIRO certified
• Australian made

NOTE: The colours on the palette are as close as possible to the actual colours as printing will allow. Actual colours may vary from batch to batch and therefore may differ.
