APPLICATION
1. Clip metal stand on glue gun Always use stand. Never lie gun down on side when in use or whilst cooling down this will cause gun failure.
2. Insert Bostik HG3 glue stick gently through tunnel at back of gun. Never use excessive force as the glue stick will clog the channel.
3. Plug cord into an electrical outlet and wait 5 minutes to heat up the glue. Ensure glue is hot or glue will not extrude through the gun.
4. Apply adhesive by gentle continuous pressure and to the more difficult surface to bond (usually smooth surfaces are more difficult to adhere than rough, porous surfaces).
5. Release trigger to stop flow of glue.
6. Glue does not need to be spread. Do not touch.
7. Molten adhesive, as temperatures around 200°C will cause serious burns.
8. Join surfaces as quickly as possible for optimum bond strength.
9. To bond foam products (polystyrene foam etc) to another surface, apply adhesive in an “S” pattern to the surface to which the foam will be bonded, rather than directly to the foam.
10. To bond fabrics, use a smaller “S” pattern for additional strength.
11. Small drops of glue can be easily removed when cold.
12. Residual glue can be remelted and removed from most bonded surfaces with a warm knife.
13. When you have finished using the gun, switch off and unplug it.
14. Allow the glue stick to remain in the gun – do not remove stick from rear of gun at any time.
BOSTIK HG3 Glue Gun

STORAGE AND SHELF LIFE
Store in a cool dry area

HEALTH & SAFETY
Always read the Technical Data Sheet and Safety Data Sheet (SDS) before handling or use. Full product safety information required for safe use is not included in this data sheet. SDS available by request or at www.bostik.com.au

PRECAUTION IN USE
Recommendations and suggestions are for guidance only, since conditions of use are completely out of our control.
For domestic use only
1. Recommended for light assembly jobs.
2. Do not allow the nozzle of the heated gun to make contact with any surface as it may cause damage. Hot molten glue may damage some surfaces.
3. Do not leave gun unattended and unplug cord when not in use.
4. Children should only use the gun under adult supervision.
5. Do not use the gun in damp or wet conditions or expose it to rain.
6. Never put any object in the gun other than the glue sticks recommended.

For emergency information contact the Poisons Information Centre, phone 131 126 or the Emergency Response Service, phone 1800 033 111.
